

## ***Building Wealth via Prospect Generation and Strategic Investment in the World's Foremost Frontier Mineral Belts***

EMX is building shareholder value with precious and base metals exploration programs in some of the world's most promising, yet under-explored frontier regions. Eurasian is aggressively adding high quality properties to its portfolios in Turkey, Europe, the Kyrgyz Republic, Austral – East Asia, and Haiti. The Company is well funded and strategically positioned to fully participate in the current favorable investment climate through solid technical advances, unique in-country expertise, and timely business initiatives.

**TURKEY** - EMX is a major exploration landholder in Turkey, with an extensive portfolio of top tier epithermal gold, gold-silver and porphyry copper-gold properties. Dr. Mesut Soylu – Exploration Manager, Turkey.
